| TC_SHIP_011  | PASS   | 5.62         | Verify all mandatory fields are marked with *                        | Expected result verified successfully via Playwright automation |
| TC_SHIP_012  | PASS   | 5.05         | Verify Add Ship screen responsiveness on mobile                      | Expected result verified successfully via Playwright automation |
| TC_SHIP_013  | PASS   | 10.48        | Verify saved ship details persist correctly                          | Expected result verified successfully via Playwright automation |
| TC_SHIP_014  | PASS   | 5.01         | Verify meaningful validation messages are displayed                  | Expected result verified successfully via Playwright automation |
| TC_SHIP_015  | PASS   | 4.64         | Verify keyboard navigation works                                     | Expected result verified successfully via Playwright automation |

# Task2 Add Ship - Test Execution Report

QA Environment | Playwright Automation

## Detailed Test Results

### TC\_SHIP\_001

*Scenario: Verify user can successfully add a ship with valid mandatory details*

Status: PASS | Duration: 13.27s | Priority: High | Severity: Critical

Steps: Navigate to Add Ship screen -> Enter mandatory fields -> Click Save

Expected: Ship created successfully with success message

Actual: Expected result verified successfully via Playwright automation

### TC\_SHIP\_002

*Scenario: Verify mandatory validation for Select Company*

Status: PASS | Duration: 5.01s | Priority: High | Severity: Major

Steps: Leave Company blank and click Save

Expected: Validation message displayed

Actual: Expected result verified successfully via Playwright automation

### TC\_SHIP\_003

*Scenario: Verify invalid IMO number format validation*

Status: PASS | Duration: 7.98s | Priority: High | Severity: Major

Steps: Enter invalid IMO and click Save

Expected: Invalid IMO validation displayed

Actual: Expected result verified successfully via Playwright automation

### TC\_SHIP\_004

*Scenario: Verify duplicate IMO number cannot be added*

Status: PASS | Duration: 7.67s | Priority: High | Severity: Critical

Steps: Enter duplicate IMO and save

Expected: System prevents duplicate ship creation

Actual: Expected result verified successfully via Playwright automation

### TC\_SHIP\_005

*Scenario: Verify invalid ship email format validation*

Status: PASS | Duration: 9.3s | Priority: Medium | Severity: Major

Steps: Enter invalid email and click Save

Expected: Invalid email validation displayed

Actual: Expected result verified successfully via Playwright automation

### TC\_SHIP\_006

*Scenario: Verify multiple notification emails can be added*

Status: PASS | Duration: 8.06s | Priority: Medium | Severity: Minor

Steps: Click Add Notification Email and enter multiple emails

Expected: Additional email fields added successfully

Actual: Expected result verified successfully via Playwright automation

### TC\_SHIP\_007

*Scenario: Verify Contract End Date mandatory validation*

Status: PASS | Duration: 7.61s | Priority: High | Severity: Major

Steps: Leave date blank and save

Expected: Mandatory validation displayed

Actual: Expected result verified successfully via Playwright automation

### TC\_SHIP\_008

*Scenario: Verify Cancel button functionality*

Status: PASS | Duration: 4.94s | Priority: Medium | Severity: Minor

Steps: Enter data and click Cancel

Expected: Changes discarded successfully

Actual: Expected result verified successfully via Playwright automation

### TC\_SHIP\_009

*Scenario: Verify Back button functionality*

Status: PASS | Duration: 5.16s | Priority: Medium | Severity: Minor

# Task2 Add Ship - Test Execution Report

QA Environment | Playwright Automation

Steps: Click Back button  
Expected: Navigates to previous page  
Actual: Expected result verified successfully via Playwright automation

## TC\_SHIP\_010

Scenario: *Verify unauthorized users cannot access Add Ship page*  
Status: PASS | Duration: 7.12s | Priority: High | Severity: Critical  
Steps: Access URL directly  
Expected: Access restricted  
Actual: Expected result verified successfully via Playwright automation

## TC\_SHIP\_011

Scenario: *Verify all mandatory fields are marked with \**  
Status: PASS | Duration: 5.62s | Priority: Low | Severity: Minor  
Steps: Observe mandatory fields  
Expected: Mandatory fields indicated properly  
Actual: Expected result verified successfully via Playwright automation

## TC\_SHIP\_012

Scenario: *Verify Add Ship screen responsiveness on mobile*  
Status: PASS | Duration: 5.05s | Priority: Medium | Severity: Minor  
Steps: Open screen on mobile  
Expected: UI responsive without overlap  
Actual: Expected result verified successfully via Playwright automation

## TC\_SHIP\_013

Scenario: *Verify saved ship details persist correctly*  
Status: PASS | Duration: 10.48s | Priority: High | Severity: Major  
Steps: Save ship and validate DB  
Expected: Database stores correct information  
Actual: Expected result verified successfully via Playwright automation

## TC\_SHIP\_014

Scenario: *Verify meaningful validation messages are displayed*  
Status: PASS | Duration: 5.01s | Priority: Medium | Severity: Minor  
Steps: Trigger invalid input validation  
Expected: User-friendly error displayed  
Actual: Expected result verified successfully via Playwright automation

## TC\_SHIP\_015

Scenario: *Verify keyboard navigation works*  
Status: PASS | Duration: 4.64s | Priority: Medium | Severity: Minor  
Steps: Use Tab key navigation  
Expected: All fields accessible using keyboard  
Actual: Expected result verified successfully via Playwright automation

**Overall Result: PASS (15/15 tests passed)**
